MEMO FOR RECORD

TO: Adm. David Reed
FROM: Adm. Peter Kohler

SUBJECT: Ship List for OHM (October 2219 Update)

Thanks for being patient, Pete. Anybody could have sent this over, but I wanted to add a few of my own thoughts on the matter. You know how I am. Hope you're getting excited about this whole thing...
-Reed

USSC VESSELS (11)

Damn good ships!

- ⊙ USSC 946 - *ASCENDANT DAWN* Roosevelt-Class Destroyer <Crew Numbers Pending USSC Approval>
- ⊙ USSC 947 - *FLAME OF LIBERTY* Roosevelt-Class Destroyer <Crew Numbers Pending USSC Approval>
- ⊙ USSC 948 - *FREEDOM'S CRY* Roosevelt-Class Destroyer <Crew Numbers Pending USSC Approval>
- USSC 423 - *BRIGHT PINNACLE* Lincoln-Class Cruiser <Crew Numbers Pending USSC Approval>
- USSC 441 - *ARDENT FIRE* Lincoln-Class Cruiser <Crew Numbers Pending USSC Approval>
- USSC 922 - *WILLFUL SOUL* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>
- USSC 923 - *SOLAR FLARE* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>
- USSC 924 - *SALLY RIDE* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>
- USSC 925 - *GOLDEN EAGLE* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>
- USSC 926 - *TEMPEST FORCE* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>
- USSC 927 - *RAVEN'S FLIGHT* Osprey-Class Gunship <Crew Numbers Pending USSC Approval>

This still feels like the equivalent of dropping the kids off at school with a battalion of tanks. I know the DCA is paranoid about another "Discovery" situation but... Jesus. Sorry this is the last run for the Roosevelts, though.

MARTIAN VESSELS (1)

- MCRF *ALLAN SANDAGE* Turing-III Research Platform 239 Passengers

I still don't love the red dirt bastards with their own ship on this thing. My old man used to have a saying: "Never underestimate someone who can outsmart you without you even knowing." Same principle applies.

CIVILIAN ADMINISTRATIVE SHIPS (1)

- *BASTION-II* Citadel-Class Colonial Base Ship 766 Passengers

Goddamn she's big, too. Pretty amazing what the Windfall techs designed her to do, though.

CIVILIAN TRANSPORTS (17)

- *INTREPID VOYAGER* Olympic IV Civilian Transport 1254 Passengers
- *COMET FIRE* Olympic IV Civilian Transport 1223 Passengers
- *NORTH STAR* Olympic IV Civilian Transport 1255 Passengers
- *WHITTAKER'S RUN* Olympic IV Civilian Transport 1231 Passengers
- *KRAKEN'S WAKE* Olympic IV Civilian Transport 1244 Passengers
- *PARAMOUNT* Olympic IV Civilian Transport 1227 Passengers
- *QUIET WHISPER* Olympic IV Civilian Transport 1254 Passengers
- *YEARNING DREAM* Olympic IV Civilian Transport 1250 Passengers
- *TRIAL AND TRIBULATION* Olympic IV Civilian Transport 1234 Passengers
- *REDEMPTION* Olympic IV Civilian Transport (MODIFIED) 455 Passengers
- *STAR ODYSSEY* Olympic IV Civilian Transport (MODIFIED) 500 Passengers
- *SEATTLE* Harmony Civilian Transport 2469 Passengers

The Harmony ships are essentially cruise ships, but these Olympics aren't bad either. Lucky civvies.

Redemption is basically one of those cruise ships gutted and rebuilt into a civilian hospital. It's wild. Remember to reference the 9/15 classified dossier on the Star Odyssey. What a cluster waiting to happen that thing is...

I know some people on the Topeka. So do you. Remember Fitz? He and his husband bought their way onto this crazy ride. Bastards.

• ALBANY	Harmony Civilian Transport	2443 Passengers
• TOPEKA	Harmony Civilian Transport	2501 Passengers
• CHICAGO	Harmony Civilian Transport	2499 Passengers
• DENVER	Harmony Civilian Transport	2367 Passengers
• SYRACUSE	Harmony Civilian Transport	2441 Passengers

Transport ships hold the bulk of the civilian population - Just over 27,600 on these 16 ships. THIS is where your problems will be.

CIVILIAN ENGINEERING SHIPS (6)

• DV-WSS-013	DaVinci-Class Engineering Platform	12 Passengers
• DV-WSS-014	DaVinci-Class Engineering Platform	12 Passengers
• DV-WSS-015	DaVinci-Class Engineering Platform	12 Passengers
• VL-WSS-041	Vulcan-Class Industrial Platform	8 Passengers
• VL-WSS-042	Vulcan-Class Industrial Platform	10 Passengers
• VL-WSS-044	Vulcan-Class Industrial Platform	9 Passengers

The Davincis are for the planetary construction projects (obviously) but those new Vulcans? Gotta love Windfall. We're already starting to roll these out across the fleet. Automated manufacturing and resource refinement? These things can

build and fly at the same time!

CIVILIAN RESOURCE EXTRACTORS (10)

• OH-MOLE 001	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 002	WSS-MOLE8 Res. Extractor (OHM Edition)	6 Passengers
• OH-MOLE 003	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 004	WSS-MOLE8 Res. Extractor (OHM Edition)	8 Passengers
• OH-MOLE 005	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 006	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 007	WSS-MOLE8 Res. Extractor (OHM Edition)	6 Passengers
• OH-MOLE 008	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 009	WSS-MOLE8 Res. Extractor (OHM Edition)	7 Passengers
• OH-MOLE 010	WSS-MOLE8 Res. Extractor (OHM Edition)	5 Passengers

Drill baby, drill.

I remain unconvinced that Windfall needed to produce an "OHM Edition" of a plasma drill with engines, though.

CIVILIAN AGRICULTURAL AND WATER SHIPS (9)

• KARMANOR	CERES-Class Agricultural Platform	17 Passengers
• DEMETER	CERES-Class Agricultural Platform	19 Passengers
• EUBOULOS	CERES-Class Agricultural Platform	20 Passengers
• HESTIA	CERES-Class Agricultural Platform	20 Passengers
• PLUTUS	CERES-Class Agricultural Platform	16 Passengers
• GAIA II	PERSEPHONE-Class Agricultural Platform	6 Passengers
• LTR-OH 001	Liquid Transport & Refinery Tanker	4 Passengers
• LTR-OH 002	Liquid Transport & Refinery Tanker	4 Passengers
• LTR-OH 004	Liquid Transport & Refinery Tanker	6 Passengers

I tell you what: They should just bring six of those "Persephone" ships with them. They've got an experimental SAT installed that cuts labor by three quarters and allows them to make super-sophisticated agro products... even that goo they use in TraumaTek medical stuff.

There was supposed to be a fourth LTR, but the ACA thwarted that one. DCA says they'll be fine, especially since the planet already has natural water.

CIVILIAN CARGO HAULERS (16)

• GSDF-03-521	GSDF-3 Cargo Hauler	4 Passengers
---------------	---------------------	--------------

- GSDF-03-772 GSDF-3 Cargo Hauler 5 Passen
- GSDF-03-773 GSDF-3 Cargo Hauler 4 Passer
- GSDF-03-821 GSDF-3 Cargo Hauler 6 Passe
- GSDF-04-723 GSDF-4 Expanded Cargo Hauler 8 Passe
- GSDF-04-801 GSDF-4 Expanded Cargo Hauler 9 Passr
- GSDF-04-808 GSDF-4 Expanded Cargo Hauler 8 Pass
- GSDF-04-810 GSDF-4 Expanded Cargo Hauler 8 Pass
- GSDF-04-822 GSDF-4 Expanded Cargo Hauler 7 Pas
- GSDF-04-832 GSDF-4 Expanded Cargo Hauler 9 Passengers
- GSDF-04-846 GSDF-4 Expanded Cargo Hauler 12 Passengers
- GSDF-04-858 GSDF-4 Expanded Cargo Hauler 7 Passengers
- GSDF-04-860 GSDF-4 Expanded Cargo Hauler 8 Passengers
- GSDF-04-867 GSDF-4 Expanded Cargo Hauler 9 Passengers
- GSDF-04-870 GSDF-4 Expanded Cargo Hauler 9 Passengers
- GSDF-04-871 GSDF-4 Expanded Cargo Hauler 8 Passengers

The DCA's "Shopping List" is going to be sent to you later this week. It'll detail everything that's being brought by these haulers... and it's a lot.

Like I said: Supply list is coming. They're bringing everything from food stores to raw materials. I think 858 is all livestock. Pigs in space, I suppose.

ADDITIONAL REQUESTED INFORMATION: LOCATION OF DCA OFFICIALS EN ROUTE TO PLANET

Governor	C. Delacruz	ASCENDANT DAWN
Deputy Governor	H. Perry	BASTION-II
Minister of Defense	T. Zhang	ASCENDANT DAWN
Minister of Science	J. Rodrigo	ASCENDANT DAWN
Attorney General	A. Bianchi	FLAME OF LIBERTY
Minister of Colonial Security	T. Wolfe	FLAME OF LIBERTY
Minister of Colonial Resources	S. Houston	FREEDOM'S CRY
Minister of Health, Education and Welfare	S. Leach	FREEDOM'S
Minister of Commerce	T. Singh	ARDENT FIRE
Minister of Labor	P. Meyer	ARDENT FIRE
Minister of Colonial Development	A. Nakamura	BRIGHT PINNAC
Minister of the Environment	J. Laghari	BRIGHT PINNAC

Engineers are having a tough time getting the suite aboard the Freedom's Cry ready before November (there was a life support issue, I guess). We may need to move Houston and Leach to a different ship.

What a pain in the ass some of these people can be. If you need anything, just ask Hartounian, Delacruz's Chief of Staff.

That's about all I've got for you, my friend. Darlene and I are away for the next week, but you can forward any questions you might have to my office. We'll talk when I get back.

-REED
